APDL HISTORY

START OF APDL

The creation of our non-profit association for professionals:

- Articles of Incorporation published as of 23 October 2013
- Cyber, legal and data protection experts joined to create a platform for:
  - Collaboration, exchanging of point of views and networking
  - Taking a common position on legal uncertainties and the gap between technology and law
  - Creating a national SPOC for regulators and authorities
  - Assist in training campaigns
  - Following up with European regulations
- Membership limited to active experts

APDL 2025 AND BEYOND

2025 AND BEYOND

Continue on a national level:

- Conferences, round tables and networking events
- Collaboration with local professional associations and working groups

New cross boarder initiatives:

- Increase collaboration with European data protection associations and European regulators while promoting Luxembourg
- Start direct collaboration with European Commission and European public administrations
- Provide APDL members the possibility to directly participate in European Association and data protection working groups
- Provide state of the art support to practical data protection questions related to AI technologies
